

ANDREW LUX

Front End Developer

 AndrewLux.com

 ImAndrewLux@gmail.com

 (415) 724 -5425

I build websites and interactive prototypes. I love finding multiple solutions to a problem, working with other excited devs, testing usability, getting user feedback, creating dynamic interactions, and seeing a project develop from ideas into structure.

Experience

Developer / Designer at Eventbrite 2018 - Present

- Working in a startup-like fashion to create engaging and modern web experiences for a variety of clients and brands.
- Front end Development in both Wordpress PHP and custom proprietary React environments.
- Helped in handling the fallout from a major security breach.
- Helped with creating a standardised design system for a new website business org.
- Helped train other developers in modern development standards.

Developer / Designer at Ticketfly 2017- 2018

- Responsible for delivering compelling, high impact, visual experiences to clients.
- Developed new wordpress plugins to be utilised platformwise.
- Helped develop a new responsive parent/child Wordpress theme to use across the platform.
- Utilized UX best practices to standardize information hierarchy to be used across the platform.

Web Developer at C+H Design 2015 - 2017

- Front end development using standard HTML5, CSS3, Javascript, JQuery, PHP, and MySQL
- Built responsive templates for high traffic and complex data driven websites
- Refined and iterated user experience by designing and implementing new modules and interfaces in complex, responsive sites

Web Developer at M-A-D Design 2014 - 2015

- Front end development using standard HTML5, CSS3, Javascript, JQuery, PHP, and MySQL
- Implemented CMS-based dynamic sites on a Wordpress platform

Web Development / Design - Freelance 2010- Present

- Front end development using standards based HTML5 and CSS3 working with jQuery / Javascript
- Demonstrable working knowledge of API usage and industry best practices.
- Web App development using JQuery libraries and Javascript backend
- Built responsive templates for high traffic and complex data driven websites
- Met with clients to determine website goals and develop strategies for creating a strong web presence
